

Declaration Regarding the Compatibility with High Current Modules

This document applies to the all of the Huawei residential optimizers product only.

Huawei Digital Power, as a manufacturer of Photovoltaic inverters and optimizers, With the continuous evolution of photovoltaic modules, Huawei's products are facing the challenge of adapting to higher current modules.

This document hereby confirms that the Huawei Smart PV Optimizers (SUN2000-450W-P2, SUN2000-600W-P, and MERC-600W-PA0) are compatible with photovoltaic modules with an I_{sc} (short-circuit current) of up to 20A.

Hope this declaration can help you plan your future business, we are consistently dedicated to providing you with excellent products and services.
